

2000 Repl Counters

- The 13 Alabama is a replacement for last year's replacement to **This Hallowed Ground**. Last year, I replaced the counter and got all the info right except the color of the state...now the state is the right color. Alabama still looks like a pork chop, though.
- The 10 PG PJ unit is for the additional counters provided for **Hube's Pocket**.
- The next five counters go to **Aspern-Essling** (3), **April's Harvest** (1), and **Marengo** (1).
- The air units replace all the ones in **Enemy at the Gates** so that the **EatG** air units conform to the OCS v3.0 standards. Oh, and there is one gift in there.
- The last 20 counters are for **Tunisia** thanks to the work of Jeff Beeler and Paul Dallas. Many thanks to them for bringing these to my attention:
 - 3 Inf Bde and 24 Gd Bde arrive with the rest of the 1 British Inf Div.
 - The two artillery brigades represent a series of independent artillery regiments. Allow both to arrive in Algiers, 1 Dec 42.
 - 51 RTR, NIH, 142 RAC arrive 5 Feb 43.
 - Remove the existing NIH and 161 Inf Bde from the 4 Ind Div.
 - 6 Arm Div: Replace the existing 17/21 L and 2 Loth Tank Battalions with the newer (Sherman equipped versions in 8 Feb 43 (the originals are used until then).
 - 2 NZ Inf Div: Remove the 4 NZ Inf Bde (back in the Nile retraining as an armoured unit) and exchange the current tank 2 NZ Cav with the new leg version (they didn't have tanks).
 - 4 Inf Div: Replace the existing 12 RTR, 48 RTR, and 145 RAC with these Churchill equipped units.
 - 50 Inf Div: Remove the 1 Greek Bde as they did not deploy with the division.
 - Add the Greys Arm Bn to the rest of the 7th Arm Div.
 - Add the 1 Buffs Inf Bn to the rest of the 8th Army.
 - Allow the new 56 Inf Div to arrive as a reinforcement on 19 Apr 43.
 - Delete the British 13 Corps HQ.
