

## LoB-01 None but Heroes (27 Apr 12)

1. There are two 82 Penn-a (3/3/6) regiments. One of them should be 82 Penn-b.
2. The 23 Ga Regiment (Rain/Hill) should have a strength of 5, not 2, making it a R5A. Set them up with any unit of their brigade strength of 3 for scenario 5.4. In other scenarios—where they do not set up at all—the unit has been destroyed in the morning fighting and is dead.
3. The 14 NC Regiment (Adrsn/Hill) should have a strength of 9, not 6, making it a M9A. Also, in the set up for scenario 5.4, the 14 NC should have a strength of 5, not 2, remaining.
4. Ignore the Palmetto Lgn set up in hex B25.28 in scenario 4.4. The unit is also listed, correctly, as setting up in B25.26.
5. The 1 Minn (1/2/2) should be R9A, not M9A.
6. Delete the 18 Maine in 1/1/5. Ignore the 18 Maine in all set ups.
7. In scenario 4.2, the hill referred to for off-map Union artillery fires is A23.11, not A27.11. Note that the off-map batteries cannot obtain a Rear Facing Target shift.
8. In the Sunken Road scenario, Pierson (arty leader) should set up with his HQ in B23.33.
