Confederate Counters – Jackson Lives Variant – LRTG

Set forth below is a revised counter sheet for us in playing Jackson Lives. On it, the two corps are recreated with unit colors that will facilitate the use of the Jackson leader counter from Stonewall Jackson’s Way II. In addition, there are now Corps and ANV Artillery Reserve counters. Because of a slight change in the artillery values of Stuart’s Cavalry, a new set of cavalry counters is included as well. Two new counters for Anderson and Early are created that conform to Corps unit colors when using Optional Rule 18.0 – Confederate Detachments. The counter sheet is sized so that when printed at 100%, 1/2 1/2” (12.7mm) counters are made that can be cut and pasted on blank counters to make a counter-set for use in face to face play.
